

PORTABLE Machine Gun Nests

The **Mobile Ballistic Fighting Position** for Entry Control Points is a modular ballistic wall constructed from Modular Armored Security Shields (M.A.S.S.) positioned on a mobile DOT rated platform. Combined with the C-Thru Shields, the Mobile Ballistic Fighting Position offers the identical protective capabilities of the M.A.S.S. ballistic shields enhanced by portability. Flexible configurations of customizable fighting positions are available in a selection of sizes.

Many weapons and logistic accessories are available for additional fighting position functionality. Customizing services are available to accommodate your units' individual Mobile Ballistic Fighting Position requirements.
